INTRODUCTION

Cosmology is the science of the Universe as a whole; a treatise on the structure and parts of the system of creation. The title COSMOLOGY NEWSLINK, was formulated from the need to fit together inter-related subjects which may or may not have bearings on each other and perhaps leading to the answers or conclusions of some of them - if not all of earth's mysteries in which case this magazine has accomplished its function. Most of our title was suggested by Mr. Patrick Dineen, of Co. Kerry Ireland, We added the LINK.

EDITORIAL

IT APPEARS THAT FOR SOME ISSUES OF CNK, WE HAVE BEEN DEVOTING EACH ISSUE TO A CERTAIN THEME, WHICH TAKES OVER THE MAGAZINE AS A MAIN FEATURE, OR POINT OF VIEW. FOR EXAMPLE ISSUES 14 & 15 HAD THE HOLLOW EARTH THEORY, WITH ISSUE 17 CONCERNED WITH SUGGESTED COVER-UPS OF LIFE IN SPACE.

Now, due to this amazing accident, it would be a good idea if CNK picked on certain specific items for airing to the public.

I know my co-editor, David Prockter would like CNK to take a much more STRONGER worded viewpoint by slamming vocally hard at certain issues at stake, or at persons, etc. But would this be right for us to do so?

One classic example would be to blow the lid off the Secrecy Act and CNK would blurt out all it has learned about disappearing human beings in experiments, due to our devious methods of obtaining such terrible data.

WE DO HAVE such secret data, but dare we use it?

Also to expose other top UFO magazines for FRAUD cases of science-fiction being presented as FACT!

WHEN therefore does public safety overrule secrecy? Should the public be informed? We know that ONE National newspaper dares not touch the story! They dare not risk it.

We mentioned it briefly in one issue of CNK however, and so far so good..maybe because nobody cares or believes a DAMN WORD about it until we actually start naming names and addresses of persons involved, something which many other publications hide behind non-existent persons, in these deguassing experiments. David wants CNK to hammer hard, but the establishment of this world have a way of hammering back!

For example only today when this went to press (March 19-78) APRO in the USA said in their bulletin, and quote: "IT's official. OFFICIAL UFO, like the 'true confession' magazines, is now using only fictional material which is being presented as factual. CUFO Associate Editor Charles Cowley admitted this." (see page 16). Last word. CNK's quality slipped in some issues due to new parts for my machine being needed. This is being tended to soon.

By David Prockter

WHILE A GOODLY PERCENTAGE OF YOU OUT THERE WERE PREPARING TO DO BATTLE WITH THE NEW YEAR'S FESTIVITIES, A FEW THOUGHTS CONCERNING OUR PART IN THE UFO ENIGMA OCCURED TO ME WHICH SEEMED QUITE RELEVANT AT THAT TIME. Now, just a few cold January days in the future, these thoughts seem even more relevant.

I asked myself a brace of simple-sounding questions-yet to answer either of them is not so simple. Firstly what do we really know about UFOs? Secondly, what ought we to know about these baffling aerial apparitions?

I personally believe that we know very little about UFOs; and that the little knowledge we have, (supported by mere lukewarm hypothesi, insufficient data and ludicrous factoids as it is) has progressed at a snails pace. We have our incestuously-staffed and traditionally isolated UFO investigation groups..they do what they can, but the results are usually a few numbers and letters on a filing card.

Other larger organisations, provocatively titled 'National' but very often posthumously-titled 'redundant' fare no better; a UFO documentation centre proves to be merely a filing system plus thesaurus. We know as much about our self-styled aerial phenomena as we knew about forgotten languages before the discovery of the Rosetta Stone.

The clues, I believe, are all there. It is not a matter of just interpreting them; before we can reach that most absorbing of territories, we have to be able to tell the difference between a clue and a red herring....

What ought we to know? That is so much more difficult to discuss, especially with science, as advanced from Pasteur and Goddard as it is, positively lacking in the

skills able to duplicate the properties of the UFO(whatever THEY may be)..

I am in no way convinced that all UFOs are of an extraterrestrial origin, I am in no way convinced that any UFOs originate from a hollow(or at least, tunnel-ridden)earth. But then, I don't need convincing. It is dreadfully difficult to convince others with our pitiful knowledge, however.

ITS ALL THE RAGE ! CLOSE ENCOUNTERS OF THE THIRD KIND.

The above film has hit British cinemas just like the 1977 UFOs themselves. The film was shown before the Queen and other members of the Royal family on March 13 1978 at the Odeon Cinema in Leicester Square, London. But what surprises your editor is why DID they allow the Queen to view such films of this nature, or is it just any old film the Queen gets to see?

If as Buckingham Palace suggests to CNK in 1977 in a letter, that the Queen cannot venture an opinion on UFOs, then why go to the hypocritical lengths of allowing her to see a film on the opinions she doesn't have! Because the Queen and Prince Philip DID see Close-Encounters of the Third Kind, which IS a film about UFOs, then it is FITTING that the Queen's picture should now appear in Tribute to her on the back of CNK number 16, which we are indeed a UFO type magazine.

In that issue, our letter to her in part asked:

"Do you consider it a possibility that, in your opinion only, that there are other life forms in space, other than our own?" The reply from a Mr. or Mrs. Hesselstine from the Palace read: "I am commanded to thank you for your letter of 5th July asking for an opinion from the Queen and the Duke of Edinburgh about 'other life forms in space'. I fear that it is not possible to do as you ask."

WHY THEN IS THE QUEEN ALLOWED TO WATCH CLOSE-ENCOUNTERS OF THE THIRD KIND? Now she HAS seen it, she MUST have an opinion to give-even if it is among the Royal family itself

I may be taking this question up with Mr. Hesselstine soon for an answer, since I have been told by some that the Queen must

keep the faith. That is the Christian religion, I believe, in which the mere mention of life outside our own is impossible—HOW naive! (this word means ARTLESS) Therefore why should someone who is supposed to be keeping the faith, if it really exists, watching the film.

Again to reiterate the words: "I fear that it is not possible to do as you ask" (in seeking her Majesty's opinion). Is thus not speaking with two tongues?

HOWEVER Prince Philip seems to believe in LIFE in SPACE other than our own. The proof comes from the report seen in the DAILY MIRROR, Thursday July 13th 1972 (the year CNK appeared). It states:

THE HOPE IN SPACE

--By PHILIP Mirror Reporter.--

"The best chance of world unity might lie in finding some threat from outer space, Prince Philip said last night.

But, he went on, if mankind came to understand that the earth was their only home in the universe "we might find some unity of purpose in trying to look after it with more care and consideration."

Prince Philip was delivering the "Ono People" oration from the pulpit at Westminster Abbey.

He said that, for the first time, people were beginning to be conscious of the whole world and its place in the solar and stellar systems.

FUTURE

"Political consciousness has been going up the scale from 'my family,' 'my city,' 'my country' to 'my world,' he said.

"Perhaps some future generation may be able to say my universe!"

Prince Philip told the congregation: "We have rated computers above compassion, machines above mercy, and telecommunications above human relations.

"We have forgotten that in every age the great human civilisations have depended far more upon emotional inspiration than upon the standard of the plumbing."

CNK FOOTNOTE: David Prockter said in issue 17: "There is only one race on earth—the human race."

But of course, Close-Encounters of the Third kind is science-fiction, something this magazine does NOT go in for. However, This film is based on factual evidence of UFOs. The close-encounters scenes, especially where the craft approaches SO CLOSE to the house that you see the very screws in woodwork unscrewing themselves—could very well be fiction—yet who is to say it could not happen if the power source of the UFO was THAT close!

POWER SOURCE OF UFOS

This very well leads us ONCE MORE to that irritable question—how do UFOS work, what is their source of power. Since outlining all the possible clues to UFO propulsion in the last issues or so, now comes yet another few clues.

One clue given many years ago, which I have attempted to get into and failed (as yet) is the statement that if there is a REVERSED COIL WINDING, this should make propulsion. But what the heck is a REVERSED COIL WINDING! Unless sufficient power is put into it nothing works! All you end up with is an electric bowl fire!

The next clue, if it is one, comes from the APRO BULLETIN, Sept., 1977, on page 7 and from their letters page comes this:

"The film "Starship Invasions", released as Science-Fiction, contains numerous elements of the phenomenon of the Unidentified Flying Object and of the Ancient Astronaut theme.

1. The electromagnetic effects which bring vehicles to a halt.
2. The use of the paralysis beam to prevent flight on the part of humans.

3. The fantastic manoeuvrability of these craft and the theorised propulsion system based on REVERSED electromagneticism. (capitals mine)." This was part of the letter by Beatrice M. Zimmer to the Aerial Phenomena Research Organisation, Inc. 3910 E. Kliendale Road, Tucson, Arizona 85712, U.S.A.—for those who wish to get in touch with them.

EDITOR'S BITS AND PIECES

1978 is still getting sightings of UFOs, but not to the extent as the 1977 flap. On the next page we carry forward some belated 1977 UFO sightings which arrived AFTER issue 17 went to press, and indeed during typing out the stencils.

The Staff of CNK are very sorry to hear of the death of Ray Palmer who for many years produced his FLYING SAUCERS magazine, and touched on many home truths so upsetting to the establishment!

The proposed Encyclopedia of weird events which I am producing is still being typed out and artwork continuing. Volume one is expected to make an appearance by about July. This is a VERY VERY long job, and estimating times of release are impossible. Volume 2 may not appear for as long as 4-6 months, after volume one. £5.00 both.

Sightings

Continued from 1977. Also 1978

Thanks to the following persons for sending CNK the sightings: Ed. O' Hare, Harlow, Essex, Bob Blonville, Gene Duplantier, and the boys of the York astronomical Society. Also to other readers who have kindly sent in sightings. In date order.

Some sightings here have been repeated from issue 17 because we had to cut them short in that issue due to lack of space. They are in fuller context here.

Other reports carrying photos with them will be reproduced next time. We start with a run-in to the sightings, from the following magazine:

WEEKEND MAGAZINE-July 1977
UFO FROM THE PAST. SAUCERS have been flying about for a lot longer than most people think.

One was reported over San Francisco on a November night in 1896. And it was seen by thousands of people.

The saucer was spotted from time to time for five months. It was reported over Iowa, Nebraska, Missouri, Wisconsin and Minnesota.

STUBBY

The following April it was sighted over Chicago, where observers described it as a huge cigar shaped object with stubby wings. A pioneer flying machine? It couldn't have been, for high-flying planes were not invented. The thousands of people who saw the object in the sky simply called it "The Thing" or "The Shape".

Some thought it was all a hoax, others that it was the shape of things to come. They could be right...

*CNK SAYS: DON'T forget, that long before this time hot air balloons were in the experimental stage. This could well have been one, or some intrepid inventor working with newly discovered use for hydrogen-in effect a balloon(?).

MARCH 21 1977 Guernsey Evening Press, Channel Islands. (v) the Essex UFO Study Group.

ANY EXPLANATION FOR MYSTERY DISC?

PHOTOGRAPHS of a mystery object flying over St. Peter Port have been taken by a person who asks: "Can someone

give me a logical answer for them?

The bright circular discs (photo not reproduced due to the bad quality of the photo-copy sent to us)-Ed!..was seen at night by Mr. John Shaw, when he went into his garden. "I dived back inside and grabbed my camera", he said.

Mr. Shaw, of 4, St. George's Esplanade, managed to take three photographs of the object but, as he turned to call his wife the phenomenon disappeared.

He estimated that the UFO was visible for about 10 minutes.

To try and clear up the riddle, Mr. Shaw has sent one of the photos to Esther Rantzen, of the BBC TV's That's Life programme. He also wonders whether any Evening Press readers can shed light on his mystery pictures.

*Seems like UFOs are a new phenomenon to Guernsey people. Did they not see CNK advertised in that very newspaper in 1973? If they did, and HAD responded, maybe they would know by now what the mystery discs are!

AUGUST 1st 1977 Southampton Echo : SOLENT UFO SHEDS STARS OVER THE ISLE OF WIGHT

A BEAULIEU woman who does not believe in flying saucers and her son are still puzzled over their sighting of a strange object. Mrs. Barbara West, and Mark (13) saw what looked like a very bright star in the sky, hovering over the Isle Of Wight.

They turned out the lights and watched. Mark thought he could see something rotating on the surface of the object.

"Suddenly something seemed to come away from it like a falling star. But when it was gone, the big star was just as bright. Then the same thing happened again.

"About quarter of an hour later," said Mrs. West "another star left it and the bright light moved vertically, then levelled out like a plane and went off in the Southampton direction. We watched until it dimmed to nothing." Mrs. West said the time was 11.30 pm.

"I am not a believer in UFOs, I am a practical person-but I do not know what it was and my son is as mystified as I am."

*CNK says: I am glad this woman is a practical person and not a believer in UFOs, because, unfortunately OR fortunately, I the editor of CNK DO believe in UFOs. I certainly don't want anyone to think that those of us who do believe in them, think of us as UN-PRACTICAL people!! (Even if I myself have NOT seen a UFO as such. I know they exist because I was witness to a heavenly spectacle myself in 1965)=Ed!

AUGUST 26th 1977, Harlow Gazette and Citizen:
HUMMING WOKE HIM UP-WAS IT A UFO?

A LOUD humming noise brought Paul Richards out of a happy slumber early on Monday morning and greeted him with one of the strangest sights he had ever seen.

As he looked into the grey dawn sky from his home in Rushes Mead, Harlow, he saw a series of square lights headed by a long strip of light travelling across the rooftops.

While the lights were visible, the noise, which 23-year-old Paul likened to the drone of an electricity pylon, hummed on. But as the lights disappeared behind the roof of a nearby house, so the noise stopped too.

"It was about 4 am when I woke up and saw the lights. There were about 12 of them in a line and they were very bright, like ultra-violet lights. 'I'm sure it wasn't a helicopter or a plane. In fact I've never seen anything like it before. I have always read about UFOs and been mystified by them but now I believe in them,' Paul told the Gazette-Citizen.

The experience shook Paul so much that he couldn't go back to sleep afterwards. "I woke my wife and told her, but she just grunted and went back to sleep. It worried me so much that it kept me awake," he said.

And now Paul firmly believes that what he saw was a UFO. He will definitely be keeping his eyes open in future for any more strange lights in the sky.

OCTOBER 1st 1978:

UFO SPOTTED OVER DUNMOW BLUEBELL WOOD.

Young Doug Claydon could not believe his eyes when he said he saw a UFO hovering over a small glade in Dunmow, known locally as Bluebell Wood. Doug, who wrote out his sighting for CNK claimed that it was a white object, which came out of a cloud near the wood which moved along and stopped. Twenty seconds later, claimed Douglas, it moved along and went up to about one hundred feet. He said it then zoomed down to about 120ft. After performing various manoeuvres, it shot away and was never seen again. Doug was the only witness, and the story is in doubt due to this, although possible.

OCTOBER 2nd 1977 (via Essex UFO Study Group) UFO SIGHTED OVER BARNET
Credit: The Barnet Press:

A "Flying Saucer" was sighted over Barnet on Friday night. Barnet police had two reports—from Mrs. Ann Stait, of 42, Chesterfield Road, Barnet, and from Someone in the same area who did not leave her name.

The police were unable to find any trace of anything having landed and made a routine report to the Ministry of Defence.

Mrs. Stait's 14-year-old daughter, Anita, was the first in the family to see the unidentified flying object—at about 9.30 p.m.

Her mother described it as "completely round, with five white lights; flying quite high and making no noise."

From their front garden, Mrs. Stait and Anita watched the object as it sailed over towards Mays Lane and out of sight. They went to the back garden and saw it again.

"Suddenly it stopped; all the lights went off and it hung there for two or three minutes," said Mrs. Stait.

"Then the lights went back on again and it doubled back the way it had come. From the front garden we saw it go down behind the houses in Stanhope Road. It went down like a shooting star."

She could not say whether the UFO was coloured because it was getting dark, but the five lights were very bright.

Mark Lunn, a schoolboy living next door, was in his front garden with a friend when the Staits sighted the flying saucer and he also saw it. Mrs. Stait says she and Anita saw something similar about a year ago.

The anonymous report to the police was a UFO with five lights and suddenly a flame appeared from it."

*CNKs Comments and notes: This sighting was presumed to have made front page on this local newspaper. It is very well detailed and is the first time I have heard of a UFO putting out its lights while it hovered around. A very interesting report. Maybe this close-encounter was one step away from the real thing! It is odd to also note, that CONTACT of U.S.A. in a bulletin two years ago mentioned a man who was hypnotised and his mind put FORWARD in time. When the question was asked 'have we made contact with the UFOs yet?' he replied that there was a contact of a sort. Maybe they will be proved right if the film Close-Encounters is to be taken as a glimpse into that future. I hope so. At least, all us ufologists are now LAUGHING UP OUR SLEEVES and saying to the rest of you out there.. "SEE! WE TOLD YOU!" Now the world is waking up, when before we were laughed at as cranks. Now who are the cranks. We are having the last laugh! The future is coming true!

SEPTEMBER 9th 1977 EP Local News. Via Bob Braco and Essex UFO STUDY GROUP, of the "Scunthorpe UFO Study Group", 18 Edwards Road, Scunthorpe, S. Humberside:
REPORT OF UFO NEAR MEXBORO. A U.F.O. sighting has been reported by residents at Bolton-on-Dearne, near Mexborough, who say they spotted a strange circular-shaped object in the sky last night.

Parents and children in one street - Broomhill View---- rushed out of their homes just before 10pm to watch the U.F.O. across the field at the rear of the houses.

Eye-witnesses described it as a flying-saucer-type object which hovered in the clear night sky, although spinning around fast for about 15 minutes before making its way from the direction of Manvers towards Wombwell.

One resident, mother of four, Mrs. Lilian Hudson of Broomhill View, learned of the sighting from her son, Derk (14), who came running in to tell her.

She said: "I thought he was pulling my leg at first. I was amazed when I went outside and saw this peculiar object."

C O N F I D E N T

"It kept going around in circles and a big bright light kept flashing on and off. Most of the street was out watching it and the children were very excited."

"In fact, some of the youngsters were even trying to signal back with their torches. I've never seen anything like it before."

Mrs. Hudson said she was confident it was not a helicopter or plane.

"The sky was clear, and we could see it quite well. The strange thing was, it made no sound at all."

Police in the area said they had no reports of any sightings.

A spokesman at R.A.F. Finningby said there had been no unusual aerial activity or night flying in the area last night.

*CNK says: POOR OLD HELICOPTERS ALWAYS GETTING THE BLAME WHILE OPEN MOUTHED POLICE STAND HOPELESSLY HELPLESS TO DO ANYTHING ABOUT IT!-not to mention NO reports-when a WHOLE STREET saw it..come come..what's happening up there! Even the R.A.F. are just as powerless. The UFOs can, and DO make all of us look pretty primitive and daft-don't they?

OCTOBER 28th 1977 Daily Mirror Newspapers Ltd.

Two police officers yesterday put in a startling report to their station: We've seen a UFO.

The claim was made by PC Chris Bazire, 20, and policewoman Vivienne White, 22, who were on panda patrol duty at dawn in Salisbury, Wilts.

They spotted "what appeared to be a flying saucer" at a height of 500-700 feet over Salisbury Plain, scene of several reported UFO sightings.

Chris said: "It was oblong with a domed top and a flat bottom. It was travelling very slowly at first. Suddenly it shot off at tremendous speed, leaving a vapour trail."

A Spokesman at the Boscombe Down Secret experimental station on the the Plain said that it was none of their apparatus, and the Army could not shed any light on the mystery.

November 22nd 1977. THE SUN: UNITED NATIONS DECIDES TO WATCH FOR UFOS

The United Nations is to start an official probe into flying saucers. Their surprise move follows the latest film by the young cinema prodigy, 29 - year old Steven Spielberg, the man who shot Jaws.

The UN sent 100 delegates, with their friends and families, to a special screening in NEW YORK of the film, Close Encounter Of the Third Kind. All the delegates were members of the UN Special Political Committee-which until now has been involved in earthbound problems, such as peace negotiations in the Middle East.

West German delegate Wolfgang Radolf said he doubted if they could succeed in explaining what unidentified flying objects were, or where they came from. But a new wave of flying saucer sightings is expected in the wake of Spielberg's film, which is expected to make millions of pounds, just like Jaws.

Spielburg claims every detail of his new film has been reported in recent years. He says it draws on the experiences of people who have seen UFOs or met the creatures in them.

November 28th 1977. DAILY EXPRESS: WATCH THIS SPACE by Peter Bronnan in New York.

NEW YORKERS are seeing flying saucers--and not just at the cinema. Two policemen and two hospital workers reported spotting a huge orange saucer fly low over Staten Island and land in New Jersey at the Weekend.

It happened as thousands queued to see the latest Hollywood film about UFOs, "Close Encounters of the Third Kind," but the

witnesses insist theirs was the real thing.

"We drove off the road -that's how scared we were," said Diane Diaz, a 21-year-old student nurse at Richmond Memorial Hospital.

Miss Diaz and her friend Toni Corbo said "an orange object rounded on the bottom,concave on the top,of tremendous size" flew past their car.

And when they stopped a police car and lod veteran policeman Sergeant Ed Stanulis and Frank Chiarollo to the scene, they saw it too.

*CNK says: I wonder what the outcome of this report was? Does anybody in the USA reading this know? If so would they please like to get in touch with us not later than 1980-thank you.

CNK does not notmally entertain science fiction unless it contains elements of truths etc. CLOSE-ENCOUNTERS has made the world sit up and take notice of the problem. English Newspapers have been swamped with thousands of letters from people who have for many many years kept silent to UFO encounters they have had. CNK will be running through those in issues to come. We thank Ed.O'Hare for his continued support in sending us wads of UFO sightings at a time. He is the best UFO clipping service(private) we have got for England.Well done Ed. You have been awarded CNK's CERTIFICATE OF RECOGNITION for services freely rendered to this publication.

We also thank Gene Duplantier of Canada for the same with the Canadian scene-also awarded the same!

LETTERS and other items of interest.

Please note that due to the rather lengthy list of UFO sightings, we are running OVER the pages numbers listed in the CONTENTS, which was printed BEFORE the contents themselves.

Letters(not in date order); extracts only:-

From Gene Duplantier,Canada, who writes..."UFOLK, and the next one to be produced all depends on the response I got from ufologists like yourself as to whether there is a demand for such a zine. I'd love to do another but if there is a lack of buyers than I will probably do something else instead.I got a real good idea but that has to remain secret until the time is ready."*UFOLK=see back page(CNK is there!)

From Martin Dawson of the York Astronomical Society.1,Lorne St., South Bank, The Mount, York.(for anybody wishing to get in touch):

Hi Ed.,

Thanks -A-Mill for the CNK. Please find enclosed newspaper cuttings that might be of interest to you. Tough luck for Russia with COSMOS 954 pity that it never fell into the Pacific,oh, mind you they've done well with the latest Salyut Mission. How are things in Dunmow, I trust all is well? Has Zac recently sent you a letter? Your CNKs have been selling like hot cakes up here, please send 4 more for our next meeting. Until next time, ta-ra.

Martin Dawson YAS.

CNK thanks S. Greenwood of Hartlepool for the important UFO clip you sent. This will be seen next time since we need the photo then.

FROM LINDA THOMSON, Secretary U.F.O.R.U.M. 40, Badger Road,Woodhouse, Sheffield, 13. Jan 27th 1978

Dear Edward, Thanks for copy of CNK which was up to its usual excellent standard. With reference to Commentary, as you know this is a monthly publication but due to increases in printing etc. and increased difficulty in meeting the deadline every month, we have decided to make it a quarterly publication instead. The next Commentary should, with a bit of luck, be with you towards the end of March. Hoping to hear from you soon and wishing you, and all at CNK, all the best in 1978.

*Thanks Linda-looking out for your views on UFOLOGY when you are ready to write about them.=Ed! Linda is compiling her UFO scrapbook from Newspaper cuttings. Trouble with this idea is that they often tend, with time to fall to pieces and go brown. Does anyone know how this can be prevented? Write to me C/O CNK, if you do!Ta!

Don 4 Februari 1978, Kent Y. Johansson, Skjutbanogatan 23 A n.b. 723 39 Västerås, Sweden.:-

Dear Friend! Thank you for your interesting tape and sample copy of your excellent magazine. (CNK sent a UFO talk on tape) I'm very interested in Mr. Keel's tape about Men in Black. Is it possible for you to get a copy for me? I'm also very interested to get in touch with your friend in London who is researching M.I.B. cases. I look forward to hearing from you as soon as possible. Your friend in Sweden, Kent Y.Johansson.

* DONE! CNK ran a full series on the M.I.B a few years ago. Tack för Ordbok, den vill hjälpa min into god Svensk!(för CNK)

LIFE IN SPACE

IS THIS THE

EVIDENCE???

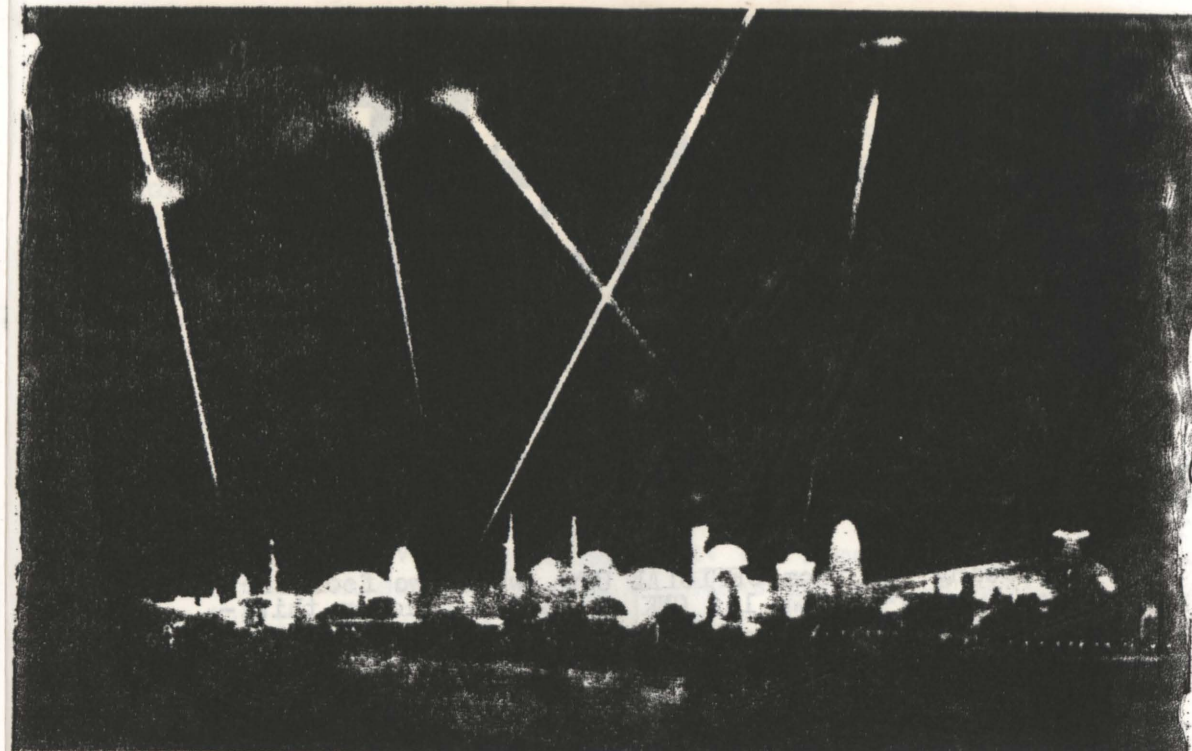

or is it a FAKE!

ALIEN SPACE CITY FOUND IN NEW ENGLAND FACTORY?

The photo (p.17) was presumably discovered by USA agents in a raid on a out of the way factory, which was building flying saucers under the auspices of space aliens, so claims OFFICIAL UFO, America's UFO Magazine . But CNK and others have reason's to believe that it is a FAKE! The credibility of OFFICIAL UFO has been under the microscope. They have been accused before of faking stories just to sell copies of their PRINTED, GLOSSY rubbish! However, although it was admitted by one of their staff that one UFO was a fake, and that they apologised for it, they are sticking to their guns about most other material they use. So we urge the reader, if they KNEW their material to be faked and they blatantly went ahead and published it, then the following story should be borne in mind, that it too could be one of the fakes. But, there is always the slim chance that OFFICIAL UFO, may one day come up with the goods, and we won't believe them!

Then we are still at loggerheads over the 1977 TV screening of ALTERNATIVE THREE in which it was suggested this time last year, that missing scientists had been whisked away to the moon and then to Mars, and that is where they are today.

The search for life in space continues. Our front cover photo shows the creature which confronted Betty & Barney Hill when they were abducted and taken on board a spacecraft in 1961, medically examined and released. Now this story is presumed to really have happened. It is the only genuine case on record, and was serialised by a sunday newspaper. The creature you see on the front cover, was particularly interested in human skin, maybe due to the fact that their own is very much like that of a porpoise. But what is the purpose of the UFOs abducting people? We hope to show you that as we travel through this article. So let us start where we should have started: On page 17 is a strange city. It is believed to be not of this earth!

This photograph, discovered at the clandestine factory, proves conclusively that aliens were present. Experts say that photo is probably that of an alien city.

THIS STORY and all its implications, was sent in to CNK by Gene Duplantier of Canada, who never batted an eyelid over the story. Now this is odd, because Gene was once the Editor of Saucers Space & Science up until 1972. This in itself could be taken to mean that he doesn't believe the story to be authentic, yet was put out by an Authentic looking lavishly printed sensation-lised magazine (which is available in some shops in the UK) called OFFICIAL UFO. CNK recommends the reader to think twice about paying any attention to this magazine in the near future, unless they chance their policy and make sworn statements either in their magazines as to the truthness of each story, or file with the law, something of the same effect, which can then be checked. So far they hide behind NO named people. goes thus:

SECRET SAUCER FACTORY DISCOVERED

The following was from OFFICIAL UFO, which we feel is not official at all! We let CNK readers decide on this:-

"Through a highly placed government official, OFFICIAL UFO has learnt that UFOnaughts have apparently taught the secrets of UFO construction to selected Earthlings!

This same government official also supplied the exclusive photographs that accompany this article, which show UFO parts and vehicles in various stages of construction."

They say that their source, a member of a super-secret agency unknown even to most members of congress, cannot publicly divulge his identity.

They say he has been involved in the efforts to suppress and discredit UFO reports. But he has now "gone public" because the

SPACE aliens are "now revealing their secrets to ordinary people."

This nameless person goes on and on in the article, about if they are friendly or hostile, what their intentions are, that they have taught earth people how to build saucers, that the saucer factory discovered was in Northern Maine, and declined to give exact location of it since. "The Government are still investigating the site and I don't want any of your readers going out and trying to find that place, as it is armed with soldiers who have shoot-to-kill orders!" He goes on that the U.S. government are still rattled by its discovery.

He goes on to say "I know a lot of UFO buffs were blaming the Air Force and Project Blue Book for keeping the lid on UFO news, but they were only following OUR orders."

This OFFICIAL UFO character relates a whole complete story of the UFO phenomenon which we in CNK and others already know about anyway like: The Orson Welles scare in 1938 in WAR OF THE WORLDS, which would be a "Sunday school picnic if any of this gets out."

And "the reason why I have emerged for this interview is to hopefully reach those who are building their own saucers using information supplied by the aliens as I don't think they realize what they're getting into by dealing with the space aliens!" He said he has taken this gamble as the only way to get in touch with the humans involved. Just like the Close-Encounters film and the truth that lies with it, this character stated "...another theory was that the space aliens were kidnapping humans and pressing them into service aboard UFOs." He admitted that there was NO evidence of this at first. "But we started getting all sorts of funny info from our phone taps of UFO witnesses and contactees. These people began to talk about 'going for rides' about getting instructions from people with names like Ashtar and Vennaria. We started hearing comments about going up to Maine. Finally

it was decided that we were going to have to tail some of these people to find out what was going on".

According to the nameless man the agents were surprised that all these people came out of their houses AT THE SAME TIME as if they had been programmed in some way.

They used to go to Maine on weekends with some excuses to their families for doing so. Agents who tailed them, according to the OFFICIAL UFO character, found them to all turn off at the same exist on the Interstate Highway 95 north of Bangor. Satellite and airplane reconnaissance were used to try to find the factory at first, secretly and a fix was finally made on it. Then one Saturday, after a radio-transmitter had been planted on one of them, a raid on the place was called for so that everyone involved could be questioned. It happened, but they "came up empty handed". When they got there everyone had just disappeared. "The really weird thing was that no one saw anyone leave by car. We had tracked the usual crew motoring into the area but none-and I mean none!-of them had been seen driving out. Their cars too, as if the earth had swallowed them up-or flying saucer had zoomed them away!"

That is when they spotted the odd looking building in the wood. It was camouflaged to prevent

being seen from the air. It was perfectly rectangular in shape, siad the mancless person to OFFICIAL UFO, and it had a rounded roof. There were no seams to be found on it anywhere. The building seemed to be constructed of a plastic or glass-fibre material; yot it was not any material known on Earth! Samples of it were taken "but we could not identify that as being any known Earthly material. When broke down its components and elements we found a whole set of materials not in any of the chemistry books. I'm convinced that building was brought to Earth by space aliens!" he said. It was hoped the missing 15 humans which vanished would return but they did not to this date, he added. The shock that awaited them inside, was the biggest in their lives, he continued. "Inside that place - was :- A DAMN UFO FACTORY WHERE HUMANS MANUFACTURED THE SPACE VEHICLES UNDER THE GUIDANCE OF THE SPACE BEINGS!" It was filled with UFO parts in various stages of construction, as shown in the top secret photographs, which came with the article into OFFICIAL UFO. (CNK reproduces only the space city one). Evidence was found of human/space alien co-habitation. "We found empty food wrappers, drink cans, and crushed out cigarettes, indi-

cating ordinary humans had been in there. But we also found these strange liquids and solids in other areas of the plant. The solids had what seemed to be teeth marks on them, as if they had been chewed upon. BUT THE TEETH MARKS WERE NOT HUMAN! We performed analysis on them, and found, they were rich in high-grade protein. But on further analysis we found those substances were full of such things as arsenic, lead, and mercury—all deadly to humans! We concluded that the space alcins were apparently working with the humans and this was 'their lunch' so to speak." As to the UFO parts themselves. Several military trucks were dispatched to Maine and brought all the parts to the agency's headquarters just outside Washington, "where they were put under the tightest possible security, and top scientists (again unnamed) were summoned from all nations in an attempt to unravel the mystery of the captured space vehicles. "They all struck out, Cutting torches could not cut through the metal of the alcin parts too. Now CNK says, if this story IS true, then this

UFO magazine has done that which every UFO magazine in the world has been trying to do. NOW THE QUESTIONS ARE GOING TO BE ASKED. I am sure BUFORA, who receive CNK will be most interested in this case, and other groups too.

These are some of the people that had vanished by the time Federal officers raided the factory (from left to right: Alice Jennings, mechanical designer; Connie Lewis, an electronics assembler; and Ken Lee Chiang, also an electronics assembler. All were employed in the Boston area.

ARE THESE REAL PHOTOS IN THIS UFO CASE, OR FAKED? These photos seem to be of feal missing persons! If they are who OFFICIAL UFO claim, then where are they? Or are they listed as missing on U.S. Police files. Only time will show up OFFICIAL UFO for what it REALLY is! Whatever that may ever turn out to be. Was Alternative 3 in a similar vein? There were so called missing₂₁ there-too!

But I am sure it is science-fiction being put over as fact! Is there any connection with this and the WHITE HOUSE's New UFO Study, or is it co-incidence? Betty Jones of Montana writes: "I was writing to one of the editors, and he quit because of the fake story! he found. Now a battle is on over a town they say was destroyed by UFOs, and they still claim it is true, others say it is a fake." WHAT DO CNK READERS THINK?

EXPOSED! U.F.O. AGENTS

Another amazing story from the same magazine involves abduction cases, like the one we mentioned earlier and whoes picture we publish on the cover of this UFO naut. However, if this story is again-true, then its implications are awesome. The very dubious OFFICIAL UFO had

this to say about abductions. I sure hope that we are NOT filling up CNK with what looks like science-fiction, in the light which we now view this publication.:-

The article written by a Tom Carr starts:

* Has your next door neighbour been programmed without his knowledge by UFO aliens to do thier bidding upon command?

(CNK NOTE: In the light of the last article this one seems to ring true-bear it in mind, ie when all the UFO contacts all left home as if 'programmed'etc).

The very idea, sounds like the plot of a science - fiction movie from the 50s. *(you CAN say that again). Yet, says Tom Carr in his article, "this is not fiction but cold,hard FACT."

All across America investigators are uncovering case after case in which ordinary people have been subjected to strange "brain treatments" that have left a set of programmed instructions buried deep within the subconscious mind, CREATING AN ARMY OF UFO AGENTS READY TO GO INTO ACTION WHENEVER THE UFO ENTITIES GIVE THE SIGNAL! A prominent New York psychiatrist, according to the article had spent much of his time investigating

all this.

He said if a computer can store data instructions etc, that can be turned on and used any time-so can human beings. This is what has been happening to people. But they (UFO-nauts) haven't perfected the art, because under hypnosis it breaks down and most comes out. Take this story of David Draper. He is a 27-year old salesman from Scranton, Pennsylvania. He led a normal life until the autumn of 1976, when he began to get recurring dreams.

"I was having this dream just about every night of meeting a landed UFO out in the country." he told OFFICIAL UFO writer, Tom Carr by telephone. "Something happened to me in that dream. It kept recurring to the point where my job and home life were being disrupted." Draper said he lost weight too. Finally he saw the psychiatrist, just mentioned. He was brought to him at this Doctor's own expense, since he had dealings in these cases, and had run into other people who had had the same experiences. But in David Draper's case was proof "that it all tied together and gave us the first conclusive evidence of the programming activity."

David Draper tells his story to Dr. Nelson. Draper was one of the lucky few who had a 'bug' in their program, interrupting the desired chain of events.

The story Mr. Draper unfolded under hypnosis was as follows:

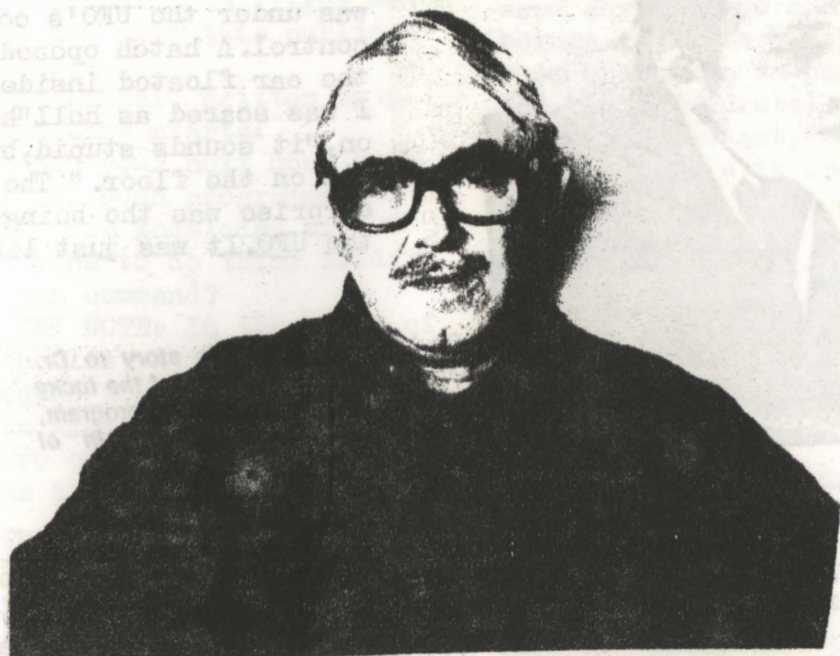

He was returning to his home in Scranton on the evening of September 26, 1976, travelling route 6 in northern Pennsylvania at about 10p.m. On an isolated part of the road, he saw the usual bright light in the sky so familiar now with UFOs. It kept pace with his car, travelled about 200ft above the road. As he entered a wooded area, the UFO dropped down in front of his car. He recalls: "I was doing about 65 mph, there was no way I could avoid plowing into it. But before that I ran into an invisible wall, like the feel of water. My car actually left the road."

It moved slowly towards the UFO. All electrical gear had failed, and the steering wheel didn't respond. It was under the UFO's complete control. A hatch opened and the car floated inside! I was scared as hell "he went on, "it sounds stupid, but I hid on the floor." The next surprise was the beings in the UFO. It was just like a

normal human being; like a middle-aged white male, dressed in a blue jacket and pants." (similar to Chinese type dress). Draper was told to come out. The man spoke perfect English. He was not to be harmed; also there were two types of being in that UFO he said. "Some looked like humans, male and female, black & white, others were 5ft tall and looked like humanoid apes!" The latter were clad in silvery type 'suits'. Only the human type spoke to him. They placed a 'x-ray' looking machine above him, and put what seemed to be headphones on his temples. He felt he was being fed high-velocity information, and under hypnosis not all of it came out. Draper asked them why they needed so many people to do this to?

WHO'S WHO

IN UFOLOGY
continued.

HANS PETERSEN.

I.C.M.P.

Editor of the Danish magazine UFO KONTAKT which was published in English and still sees a copy or two here. He served in the armed forces from 1945 to 1976 when he retired. In service he was a senior Air Traffic Controller, both in civilian control as on radar. Was in charge of air traffic units since 1949.

He started UFOLOGY in 1952 when he had his first sighting. In 1955 he encountered one on radar, and one in 1957 also on radar. Then he started the Scandinavian UFO-Investigation. In 1959 he became an Adamski co-worker, and in 1960 was asked to direct the International Get Acquainted Program (IGAP) activities in Europe and Asia. In 1964 he published the first UFO CONTACT which was sent to all members of the United Nations, all heads of state, scientists, etc. This ceased in 1976, due to increasing expenses. Lectures in many countries. Has encounters with UFOs of the 2nd kind. (physical evidence).

JENNY RANGLES

Jenny, seen here with her parents at a UFO function 1977 aims to bring some sense to the ufological muddle with an unmuddled mind and clear thinking.

EDITOR OF NUFON NEWS came into ufology at the right moment. She has appeared on television with others in her group, and now is teaming up with Flying Saucer Review. Jenny (far right) has been added once again to WHO'S WHO due to bad quality pictures last time. Best wishes for 1978 Jenny!

MICHAEL MILTON

Michael is not an active Ufologist, but has had some sightings. He studies metaphysics, and is seen here destroying a nasty chain letter sent to Eliot Bliss a CNK reader in B. Stortford. The letter bore a threat of harm if it was NOT passed on. As this photo was taken last year, Mike is fitter. He has proved that no such 'magic' is attached to them. Mike believes UFOs come from the hollow Earth.

JANET BORD (Gregory) & LIONEL BEER.

LIONEL BEER was one of the first publishers of a UFO magazine in Britain. It rivaled Flying Saucer Review at one stage. Seen here at the last of his Symposiums of his journal SPACELINK, which closed soon after. Lionel is still active with the British Ufo Research Association (BUFORA) and is the council chairman. He provides information for their journal 'BUFORA JOURNAL' which is professionally produced. Janet Bord, then known by her single name of Gregory, assisted Lionel in many of his adventures in print and in organising. She married shortly after this picture was taken by CNK editor, and we don't know what her situation is today. CNK wishes both all good wishes for 1978, and may the force be with you!

D A V I D
R E E S

David's interest in UFOs was sparked off when he read a book called FLYING SAUCERS-SERIOUS BUSINESS, by Frank Edwards. He says that this really impressed him. Over the years he read others on UFOs also.

In 1973, he answered an advert to start a national group FSIT. This brought me together with Jenny Randles. We both set up MAPIT and brought out the 'Manchester Scene' later to be called 'SKYWATCH'. We both tried to start a national co-ordination group called 'Probe National', this was a flop, so we concentrated our efforts on the North-West and founded UNO. This later became NUFON.

In August 1974 I took over as Sec/Ed MAPIT/SW and Jenny devoted all her time to the NUFON idea. We still keep in close contact via letters etc. At the moment I am working towards building a Cheshire East UFO Cat which could be published in the future and working on a project on Mystery Helicopters.

I am very interested in the UFO publication side of the subject and I enjoy editing SW which now is worldwide to 17 countries, and I still enjoy ufology as much as I did in 1973!"

For those people in Dunmow who are interested in UFOs and the like (after reading CNK for the first time)-thanks to Willet's Newsagents who provide sales space for us, I recommend you all write to one or more of the following for information:

THE ESSEX UFO STUDY GROUP, Dan Goring, 5 Carlton Terrace, Great Cambridge Road, London, N.18 1LB

BUFORA. T. Pace, NEWCHAPEL OBSERVATORY, Newchapel, Stoke-on-Trent, Staffs.

JENNY RANGLES, NUFON, 23, Sunningdale Drive, Irlan, Manchester, M30 6NJ

I am sure these folk will be only too pleased to assist you in your enquiries on UFOs and to take any strange sightings you have had. Don't forget CNK too welcomes sightings from the Essex area-providing we have space to get them all in-Editor!

of the scientific details quoted in the programme (eg: "greenhouse effect" causing a change in the Earth's weather) have been mentioned by genuine scientists for a number of years - although other equally eminent scientists have disagreed with such theories. But, of course, the whole programme was designed as a spoof and (so far as we know) no one has yet defected to Mars!

Everyone interviewed in the programme was acting - no genuine scientists were interviewed in the film. For copyright and other reasons we regret that copies of the film and transcripts of the programme are not available other than to television network.

A book based on ALTERNATIVE 3 (adapted by Leslie Watkins) is being published by Sphere Books. Publication date is expected to be around March, 1978.

Copies of the book can be ordered by post from: Sphere Books Ltd., cash sales department, P.O. Box 11, Falmouth, Cornwall, England.

Sorry we cannot be of more help - but we're sure you'll appreciate that after a programme like ALTERNATIVE 3 we've been snowed under by mail.

With many thanks for your interest in the programme, Sincerely, Shenagh Nightingale. Publicity, Anglia TV Ltd., Brook House, Park Lane, London, W1Y 4DX, England.

Many CNK readers intrigued by Alternative 3 also checked the programme out:

FROM FORESIGHT (John BarKlam):

"Dear Edward, We trust you had a happy and enjoyable Christmas and that Cosmology Newslink will continue to grow in the New Year. Thank you for the issue of CNK which we enjoyed reading. We found the article on ALTERNATIVE THREE particularly fascinating, since we watched the programme and arrived at the same conclusions you present in the article. In fact we wrote to NASA about it as you will see from the photocopy letter enclosed which, incidentally, you may use as you see fit, but we had no reply.

We expected this and it seems that this would be the natural reaction if they had something to hide and we're hoping that by ignoring us we would forget about it. We are pursuing this line of inquiry and will see what happens. There is no doubt that there

is a lot going on that we do not know about, and there are many scientific discoveries that we know nothing about, especially in the field of space travel, and communication with alien extraterrestrial intelligences.

There was indeed more truth in Alternative 3 than the public were led to believe and we hope more will come to light on this in the future. Meanwhile, we wish you every success and hope to hear from you again in the future. Yours sincerely & fraternally, John & Judy BarKlam. (24th December 1977)

*Unfortunately we cannot print all of John's 3 page letter to the National Aeronautics and Space Administration in the USA, as it would fill up CNK, but briefly he is asking them how far extraterrestrial involvement has progressed in our space and technological development. John is asking NASA TOO much when he asks: "Furthermore we would like some enlightenment on a few mysterious and deliberately unexplained encounters by astronauts in recent years." CNK believes John's very elaborate letter would be rejected and not even read by NASA due to the fact that it does go into VERY long narratives which take time to read, and we don't think NASA would spend the time reading it. John was in fact 'beating about the bush' when I feel he should have come direct to the point with NASA. A tough question should have prompted a tough answer. But by and large NASA appear guilty as to the charge that they are deliberately hiding the truth. It is a great pity, for there would be MORE public panic and deaths in the street and chaos supreme one day, if the outer-space aliens land and take us by surprise. It is with this thought in mind that NASA and others in high places OUGHT TO INFORM THE PUBLIC OF UFOS EXISTENCE NOW! What is the use of building a silent wall of public defence, when it will and can be breached by the UFOs. PLEASE, we need to know the whole truth, we don't want mass hysteria when it does occur. Far better to have universities educating us about UFOs and have the public aware of their existence, than keeping the public in ignorant bliss, just waiting for something like WAR OF THE WORLDS to drop in on us unawares. It is ludicrous to keep the silence that is being kept by authority, THEY WILL BE THE LOSERS AND THEY MAY PAY FOR IT WITH PUBLIC LIVES!! CNK has Spoken (is that apt)? well it should be? What voice has a tiny duplicated magazine like this, against all the red-tape bureaucracy that is around. I HOPE THE RED FACES IN PARLIAMENT ETC., WILL REALLY BE WROTHWHILE WHEN IT HAPPENS, there will be a lot of us laughing at you in years to come. What we want to know, is DO UFOS EXIST OR DO THEY NOT? What crime is it for us to be locked in the dark! What crime is authority doing to the public, who pay taxes to keep them there!!? Editor

By David Prockter

It seems that ANGLIA's June-transmitted ALTERNATIVE THREE while possibly being the art of television at its most creative, has increased all manner of people to make all manner of statements. Just like Orson wells & his Mercury Theater on the air way back when in 1938, most of the unrestrained and uneducated hysteria came from those who either missed the programme completely or caught just a fleeting glimpse. (Editor's interruption: I must confess- I was one of those people- I saw only the second half of it). I watched personally, ALTERNATIVE 3 quite by accident (or perhaps by fate, just to calm you lot down!) Having no access to any form of TV guide. I knew a mystery was in the air right from the start, but the extent of the mystery did not become obvious until the very end.

There were several ways of smelling a Jovian Swamp-Rat, even early on in the experiment. Several of the cast had been seen in other TV performances as recently as the **very** same week; the reporter for one, the astronaut's chickie companion for another, and thirdly and most important of all, judging from reactions I've witnessed the astronaut himself.

The most popular myth seems to be that this really was Edwin 'Buzz' Aldrin; wrong. The actor is well known on both major channels, appearing as he does in many of the 'scap opera' serials. He is also the voice of puppet Scott Tracy in 'Thunderbirds', the Gerry Anderson Super-marionation series. So much for that silly theory as it flies out the window with more than a flea in its ear. Other Clues? The fact that the Earth/Mars radio link experienced no time delay; that all the characters portrayed were on a cast list at the end - names were named- it seems that most switched off before that occurred; and last, and certainly by no means least; the lettering beneath the ANGLIA TV monogram which simply read 'April 1st 1977'. APRIL FOOLS DAY! A little late-out of pitch but still in tune, as they say.

As for the motivation behind the documentary, I cannot comment. As a piece of creative entertainment, it beats "McCloud", "News At Ten" and "The Two Ronnies" by a galactic

mile. It is true that the programme was false; but I would tend to think there was more than a grain of truth in it. I congratulate Anglia and myself for figuring it all out solo. But I do not congratulate those who took it the wrong way. You wouldn't be much use in a real emergency.

David Prockter, Co. Editor

WITH DAVID'S LAST WORD ON ALTERNATIVE THREE WE WILL LEAVE IT THERE. WE CLOSE THE FILE ON IT. But the closed-shop secrecy over UFOs and other mysteries still goes on. But one person we congratulate for sticking his chin out, and putting the spotlight on himself doing so is LORD CLANCARTY. For at last, he has BLOWN THE LID OF THE SECRECY OVER THE U.F.O.s : Quote:-

UFO, IN THE HOUSE OF LORDS

SECRET UFO STUDY CENTRE IN TOULOUSE. -EXPOSED by LORD CLANCARTY!!

CNK reader Lord Clancarty, Brinsley le Poer Trench, surprised the House of Lords into shame by getting them to admit the existence of a UFO Study centre in Toulouse.

In a letter to CNK, Lord Clancarty, wrote on 11th March 1978:

"I have now asked five questions for written answers in the House of Lords about UFOs, and have achieved some success with them. I am also beginning to find some people interested in UFOs in that place!"

We did not know if Mr. Trench required this information to be printed here, but it IS news, and

LORD CLANCARTY-Brinsley Le Poer Trench in the Lords.

good news for ufologists, that the government in stuffy old England IS taking off the dunces cap at last! Also reported as CLANCARTY ENCOUNTERS in the Evening Standard 14 March 1978

comes this report:

" THE HOUSE OF LORDS I can report, has taken a giant step forward in the long and difficult path towards believing in flying saucers.

Credit for this breakthrough goes entirely to the 66-year-old Lord Clancarty who, single-handed has shamed the Government into admitting the existence of a UFO Study Centre in Toulouse. This is significant because until now, the Government has been pretending that Lord Clancarty was making it all up.

Clancarty, whose publications include The Sky People and The Flying Saucer Story, put no less than five questions to the Government before Lord Wintharbotham eventually capitulated. "I keep the questions up." Lord Clancarty told me today. "The Government are trying to keep a low profile on all this," he said, adding that he attributed their reluctance to take him seriously to a wide-scale "cover-up" operation.

The indefatigable Clancarty now has a motion down for debate in the Lords next month, but meanwhile he has another tremendous psychological victory. He has succeeded in introducing the Flying Saucer Review into the House of Lords library.

* And he probably keeps CNK at home for reference -ch- Editor! CNK seems to be the world's best magazine on using second-hand information. But we do try to log it up in a sensible a logical manner, something which most UFO magazines fail to do., altogether-all the eggs in one basket, not isolated UFO incidents.

Earlier however in the Daily Express, who had been mounting a immense campaign in their UFO Bureau of February 20 1978 (the first time English Newspapers have done so with front page headlines), we read:

"Quite simply, Governments do not wish to acknowledge a problem which they can do nothing about. France-typically-is an exception. At its National Centre for Space Studies, Dr. Claude Poher leads the detailed and excellent scientific examination of UFO reports. He says that 10 per cent of their unexplained cases on record are radar reports. Britain's official policy to UFOs is negative unless they constitute a threat to our national security. Apparently they don't.

In the House Of Lords the other week the Earl of Clancarty, a UFO buff for 30 years, asked if Government was

aware of the contents of a radio interview which Monsieur Robert Galley gave in 1974 when French Minister of Defence.

Lord Harris replied that the Government had no knowledge of the interview. The brief exchange was met with the usual smirks in the soporific Chamber since Lord Clancarty is held by some to be a bit of an eccentric. If his question was typical, so was the bland Governmental reply. Ufologists view the Galley interview as a turning point of official recognition. "It is certain," the French Defence Minister said, "that there are things we do not understand and that are at present relatively inexplicable..."

"Reports from the gendarmerie from pilots, from people who are heads of air establishments and a lot of other material are disturbing." M.Galley's views did not turn the French into a nation of PANIC-STRICKEN REFUGEES HEADING FOR THE COAST. It did not bring down a Government. (Underlining and capitals CNKs)

Yet in the rest of the 'developed' (?) world there remains what many feel is an unnatural, GUILTY SILENCE."

*CNK says CONGRATULATIONS TO THE DAILY EXPRESS and GEOFERRY LEVY for pinpointing the problems. We hope you didn't mind us reproducing this for our overseas readers. Thanks! (they are STILL being kept in the dark, I'm sure). CONGRATULATIONS TO LORD CLANCARTY FOR HIS COURAGE IN SPEAKING UP FOR THE REST OF US IN THE HOUSE OF LORDS. YOU WILL GO DOWN IN HISTORY AS THE TURNING POINT IN OUR HISTORY OF OFFICIAL RECOGNITION. You have been awarded our Certificate to such an end. Words fail me, that which I wish to convey to you, but I'm sure all CNK readers everywhere must be with me in this and all feel the same. =Editor. (also to Ed.) Hare for bringing the Express article to my attention).

OTHER NEWS ITEMS

Douglas Claydon (13) of 4 Lower Mill Fields, Dunmow, Essex, wants to know if anyone in Dunmow or surrounding areas, wished to start a UFO type club up, starting with an organised Skywatch for UFOs on 24th June this year (which is International UFO sighting day owing to the first recorded modern sighting of UFOs by Ken Arnold in the USA in the 1940s) Apply to Douglas if you are interested. Anyone with a phone to take incoming sightings and acting as Headquarters, would be appreciated. The skywatch lasts all night and therefore Dunmow Police should be notified in advance of any groups of people in parks etc. Take along flasks of tea etc., if you intend to stay the night. CNK will be there with as much equipment for detecting UFOs as we can get. The following may help also if you have them.: Cameras, Binoculars, UFO detectors, compasses, and geiger counters. Location has not yet been chosen. See us before that date to finalise things.

OTHER NOTICES: CNK has become a member of Harry Tokarz's CUFORM in Canada. Duplicate sighting reports will now go to them, while the group is in existence.

CNK will no longer be sending the Essex UFO Study Group UFO reports, owing to their inability to use an ESSEX sighting in their magazine, in which they prefer to use foreign material instead.

We are sorry that we have again been unable to print items sent to us by good friends. Space has been eaten up once again. Articles to come are an OUTER SPACE QUIZ by Patrick Martin of the York Astronomical Society, so get swotting on your astronomy.

CNK TO CLOSE BY 1980

THIS IS TO ANNOUNCE THE CLOSURE OF COSMOLOGY NEWSLINK, FOR AN UNKNOWN PERIOD OF TIME. Reasons are that all my duplicating equipment needs replacing and it costs me more to produce CNK than I ever got back. CNK loses out every time. While in production, money needed for repairs goes up in paper and ink which are running away in prices downhill (somebody is making a mint on paper)! Also I have 15 years of files etc., to update, or discard as I see fit, and a total new reorganisation of my home and 'print room'. After I have had a close-down, I will assess then, if CNK should ever appear again. If the future looks better I shall carry on. BUT PLEASE NO SUBSCRIPTIONS OR LETTERS TO ME AFTER 1980. I shall notify readers, groups, and the public, if we are to return. CNK is NOT TO DIE, just hibernating for a period to weather a storm or two. IF CNK does not return, I shall be putting out special issues on a ONE OFF basis instead. CNK will become monthly or bi-monthly or at least 6 times per year to use up hords of unused material to clear it for your consumption, towards the end of 1979 this will signal the close-down. I wish to thank in advance all my loyal friends and correspondents for their wonderful enthusiasm and support in the past. CNK cannot hope to compete with the big glossy magazines, and besides, our tiny voice falls on deaf ears, and is lost in the wilderness. I do hope however, that if we do decide to go, we will be GONE BUT NOT FORGOTTEN, in the work we have strived so hard to do, and that is solve the UFO and other mysteries in an exciting way, a scientific and logical way. Until then keep an open mind, and may the force be with you!

DESIGN ARTWORK ELECTRONIC STENCILS DUPLICATING

DU-PLUS STENCILS

42 VICTORIA STREET BRAINTREE ESSEX -Tel:0376-23095

Were you suitably impressed when you at first, saw the
front cover of this magazine? We sure hope you were. One
reader, Master Robert Wright of Brick Kiln, Ongar Road,
Dunmow, who is beginning an electronics repair service, saw
it and whistled. "Boy it looks PROFESSIONAL!" he could not
believe that what he saw, came out of a mere DUPLICATING
machine. To him, it was LITHOGRAPHICALLY PRINTED. Yet I
can vouch that it is NOT! Our cover for CNK was produced
by the skill of Mr. Antony Annereau, on his electronic
marvel. Without him, it would not function, because it
is dedication to do a grand job, which sets Mr. Annereau
above the rest. Assisted by his charming wife Janet, he
will cut YOUR stencils for you, if you are having trouble
with yours. Electronic Stencils are not cheap. That is
made impossible by the manufacturers. But Mr. Annereau
will give you first class results at modest prices, some
which are well below some others who do less for more.

Examples of Mr. Annereau's work can be seen on the
following pages of CNK. It depends on the quality of the
ink too, which results we get from his stencils. I do not
NORMALLY give full page ads to ANYBODY but NOBODY, unless
I am totally satisfied with a service, and I cannot FAULT
Mr. Annereau's service. He is the best in the country as
far as we are concerned. Examples (depending on inks etc
and quality of photos etc of Tony's stencils) are on the
following pages: 1, 2, 3, 18, 21, 23, 17, 24, 25, 27, 29, 33 (the
UFO photo), and lastly the back page. CONVINCED? Then why
not give him a ring at the above number, or write, enclo-
sing a stamped addressed envelope to the above address.
I bet you will be glad you did. The rest of the photos
etc., in CNK were produced by another unrecommended
firm of Spytts. DU-PLUS STENCILS will quote you also for
any other form of artwork you require. It has been known
for Mr. Annereau to get BETTER results than OFFSET LITHO-
on one occasion, coping with copies which an expensive
photo-copying machine just could not handle. Don't read
all about it in this glowing tribute of exuberation....
act now, before you are lost in the rush for stencils!!
